

Allan Block Fence Contractor Certification

Course Description

Allan Block Fence Contractor Certification is an introductory course to the fence products and construction. The intent is to develop a basic understanding of our company, products, and tools we offer through our time tested program. Attendees can expect to walk away with the following skills:

1. Recognize AB Fence products and the advantages of mortarless fences
2. Describe the principles of fence design and how the products work
3. Estimate projects using the proper methods
4. Employ proper construction methods

Ideal Attendee

This course is tailored for the fence installer, foreman, or crew who is new to the Allan Block team. Additionally this course is useful for site civil engineers and building officials who will be inspecting and supervising construction of AB Fence projects or architects interested in learning more about AB Fence.

Requirements for Successful Completion

1. Attendance for entire course
2. Score of 70% or above on the Fence Contractor Certification Test
3. Participation in the construction or supervision of an AB Fence project

*IACET CEU's awarded upon successful completion = 0.7
